Plan Needed For Burning Ban -- Hahn

Confusion and chaos would follow a ban on incinerators before the cities have worked out methods of collection and disposal of combustibles, Supervisor Kenneth Hahn told his colleagues on the Board of County Supervisors last week.
 Hahn said he felt it would be "unwise" for the Air Pollution Control District to pass the rule prohibiting use of incinerators until Los Angeles has worked out a collection and disposal plan.
 "I believe that each city in the County should provide its own method of collection and disposal of combustible rubbish, not only as an air pollution factor but also as a means to keep our highways, alleys and vacant lots cleaner," Supervisor Hahn stated in a memorandum.
 "We cannot have confusion and chaos in the largest city in the County. The City of Los Angeles is two-fifths of the population of the County."
 He said he does not believe that it would be desirable to have a rule prohibiting backyard incinerators and at the same time have no provision for the housewife to dispose of combustible rubbish.
